

# Disconnections application criteria

## Effective from 15<sup>th</sup> February 2021

### What's changing:

**Cadent's application criteria for Standard disconnections are being amended with effect from 15<sup>th</sup> February 2021. The changes to the criteria are detailed below.**

### Application Criteria

These charges are applicable for disconnection of gas service pipes connected to the low and medium distribution networks (below 2 barg operating pressure). The charge is based upon the diameter of the service pipe to be disconnected.

**Disconnections connected to IP distribution networks will require a bespoke cost quotation.**
