Foreword

Metering Charging Statement 1 April 2021

This booklet sets out the metering charges that Cadent will apply for services provided under the Uniform Network Code from 1 April 2021

The diagram below shows Cadent's operational areas

Some of Cadent's metering charges are regulated by a price control set by Ofgem, the gas industry regulator. Ofgem has set tariff caps for four key metering and meter reading services.

Cadent's charges for these services must not exceed the tariff caps. The tariff caps change each year by inflation in accordance with Special Condition 4D of Cadent's licence

Cadent would welcome your views on any aspect of its metering service, its charges or the contents of this statement.

All charges shown are exclusive of VAT

1. Introduction

Data logger charges apply to all data loggers at daily metered supply points, as defined by the Uniform Network Code.

Service Tariff Cap - DM Daily Meter Reading

| Dataloggers | (Daily Metered Sites - Read Charge) | |
|--------------|-------------------------------------|-------------|
| | Pence Per Day | £ Per Annum |
| Total | 165.1260 | £602.71 |

Note that the asset rental charge is in addition to the Daily Metered Sites read charge as shown above.

3. Metering Charging Methodology

3.1 Introduction

In addition to publishing charges, Cadent's Gas Transporter Licence requires us to publish an explanation of the methods by which, and the principles on which, our charges are calculated.

Ofgem has set tariff caps for four key services. Cadent's charges for these services must not exceed the tariff caps, which are changed each year by inflation calculated in accordance with the methodology set out in Cadent's GT licence.

As Cadent no longer owns domestic meters only the DM Daily Meter Read charge is relevant.

3.2 Metering Tariff Caps from 1st April 2021

Service Tariff Cap - DM Daily Meter Reading

| Dataloggers | (Daily Metered Sites - Read Charge) | |
|--------------|-------------------------------------|-------------|
| | Pence Per Day | £ Per Annum |
| Total | 165.1260 | £602.71 |

Only tariff caps relevant to Cadent are shown.

3.3 Within Day Monthly Charge

Charge for provision of within-day reads from Dataloggers

This charge is made for those Shippers that receive this service during the month irrespective of the number of MPRNs and days for which the service is received.

Within Day Monthly Charge £20.31

4. Must Read Charging Methodology

4.1 Introduction

The provision of meter reading services to shippers where the shipper has failed to provide a read within a defined period as detailed in the Uniform Network Code (UNC) Transportation Principle Document (TPD) Section M. Cadent will use reasonable endeavours to obtain a reading in these circumstances. Invoice arrangements for such reads are managed through Xoserve on behalf of Gas Transporters in accordance with UNC TPD Section S arrangements.
